**Helen F Smith, PhD**  
 Assistant Laboratory Director

**Christina J Ramirez, PhD, DVM, DACVP**  
 Medical Director

Paw Print Genetics® performed the tests listed on this dog. See the Laboratory Report for interpretation and recommendations based on these findings. The genes/diseases reported here were selected by the client. Normal results do not exclude inherited mutations not tested in these or other genes that may cause medical problems or may be passed on to offspring. These tests were developed and their performance determined by Paw Print Genetics. This laboratory has established and verified the tests' accuracy and precision. Because all tests performed are DNA-based, rare genomic variations may interfere with the performance of some tests producing false results. If you think these results are in error, please contact the laboratory immediately for further evaluation. In the event of a valid dispute of results claim, Paw Print Genetics will do its best to resolve such a claim to the customer's satisfaction. If no resolution is possible after investigation by Paw Print Genetics with the cooperation of the customer, the extent of the customer's sole remedy is a refund of the fee paid. In no event shall Paw Print Genetics be liable for indirect, consequential or incidental damages of any kind. Any claim must be asserted within 60 days of the report of the test results. Genetic counseling is available at Paw Print Genetics.

## Hereditary Nasal Parakeratosis DNA Test

Case Number: 102972

Owner: Fabian Negron & Tom Flaherty

PO BOX 197

Mt. Bethel PA 18343

### Canine Information

DNA ID Number: **97499**

Call Name: **Russ**

Sex: **Male**

Birthdate: **08/18/2016**

Breed: **Labrador Retriever**

Coat Color: **Black**

Registered Name: **Gallivant Black Russian**

Registration Number: **SR95240602**

Microchip/Tattoo: **95600005257159**

Report Date: 1/25/2018

DNA Result: **Carrier (1 normal allele/1 HNPK mutation)**

These results are based on data obtained from analysis of unique DNA loci in accordance with the standards and protocols set forth by DDC Veterinary. The accuracy of the result is based on the information and the quality of samples provided by the client. DDC Veterinary does not assume responsibility of errors due to mislabeled or incorrectly sampled submissions.
